THE STORY OF THE GREATEST NATIONS

The World's Famous Events

will include the Histories of the following countries: *BABYLONIA and ASSYRIA, The HEBREWS, The PHOENICIANS, EGYPT, PERSIA, GREECE, ROME, GERMANY, AUSTRIA, FRANCE, ENGLAND and Its COLONIES, RUSSIA, SPAIN, CHINA, JAPAN, TURKEY, NORWAY, SWEDEN, DENMARK, HOLLAND, BELGIUM, THE UNITED STATES, SOUTH AMERICA, etc.*

Every one should read history, especially the young, because a knowledge of it is absolutely essential in all walks of life. So fully is the value of history recognized that over half the reading done in the world is historical. This is because the entire social organization of to-day is the product of the Past. By knowing the Past you can better understand the Present, and can more clearly foresee the Future. Hence you can live more comfortably, more wisely, and more profitably. Moreover History tells you the sources of all other knowledge, and makes human character and motives an open book.

A FEW REASONS WHY

THIS IS THE BEST HISTORY YOU COULD POSSIBLY BUY

1. It is entirely free from religious, sectional or political bias.
2. The tissue narrative makes it just a succession of stories.
3. The text narrative makes it thoroughly complete and reliable.
4. The story is simply told, easy to understand, scholarly, yet not pedantic.
5. There is no confusion; the story of each country is told by itself from start to finish.
6. It will end the complaints of your children that history is dry.
7. It is fully up-to-date, based on the most recent discoveries. The ancient history of a dozen years ago was all wrong.
8. There are brief chronological summaries so you can review and remember what you read.
9. There is a pronouncing vocabulary for each nation, so you can use the names correctly in telling others what you have read.
10. To aid the student in further reading, there is given for each nation a list of the best authorities and their best books.
11. The mechanical part is perfect, large clear type, highest grade illustrations, etc.
12. The books will last, for they are made of the best grade of paper, best ink, best everything.
13. The vividly instructive method of the modern motion pictures is here carried into history.
14. The pictures make the story appeal to the eye, and so aid the memory.
15. They form in themselves a complete history from which you learn unconsciously and rapidly.
16. Each picture gives dozens of details of costume, etc., which would take pages of text to describe.
17. The pictures include most of the famous historical paintings of the world gathered from every country.
18. Thus they form an art education in themselves, including the work of Chinese artists, Japanese, ancient Persians, Egyptians, and Babylonians, besides the work of such more modern masters as:

THE ITALIANS
AND SPANIARDS
Michelangelo
Titian
Veronese
Corregio
Riva
